---

## Objective

I am passionate about problem-solving, with coding serves as a key outlet for applying my skills to build effective solutions.

## Education

### Lake-Lehman High School

Graduated - 2025

## Experience

I started to code when I was 12, my dad bought me a course using java blocks to build my own Minecraft mod. In high school I took an online course on the basics of python.

I currently have 2 selfhosted servers at home that I effectively manage with proxmox ubuntu and docker.
